

Elf

Perennial Ryegrass

For Professional and Home Lawns

Elf Perennial Ryegrass is a dark green turf with aggressive tillering capability. *Elf* exhibits excellent cold tolerance and improved turf performance. Additional benefits include rapid establishment, excellent spring green up and the ability to blend well with other species. *Elf* is endophyte enhanced for increased insect and disease resistance.

Seeding Rates:

New Lawn: 7-10 lbs. per 1,000 sq. ft.

Overseeding: 5-7 lbs. per 1000 sq. ft.

Areas of Use: *Elf* can be used in full sun to partial shade and is a beautiful dark green color that will enhance any area. It makes a quick cover with very uniform leaf blades. The tillering capability of this grass creates a dense turf that holds up well to wear. *Elf* has the improved turf characteristics required to meet the demands of today's turf manager and homeowner. This variety produces a beautiful lawn.

- Cold tolerant
- Disease resistant
- Dark green color
- Good wear tolerance
- Less fertilizer required
