

PNW

Perennial Ryegrass

For Professional and Home Lawns

PNW Perennial Ryegrass scores at the top of corporate trials for genetic color, disease resistance and wear tolerance. *PNW* has a fine leaf texture and withstands mowing heights as low as .5 inches. *PNW* is very heat tolerant and requires less fertil-izer to retain its dark green color.

Seeding Rates:

New Lawn: 7-10 lbs. per 1,000 sq. ft.

Overseeding: 3-5 lbs. per 1000 sq. ft.

Areas of Use: *PNW* is quickly becoming one of the most sought after varieties in the professional turf industry. *PNW* can be planted in full sun to partial shade. The wear tolerance and beautiful dark green color make it ideal for home lawns, golf courses, sports fields or parks.

- **Disease resistant**
- **Dark green color**
- **Strong wear tolerance**
- **Good winter hardiness**
- **Great heat tolerance**
