

Hellion

Turf-type Tall Fescue

For Professional and Home Lawns

Hellion Tall Fescue was selected for its fine leaf texture and beautiful dark green color. *Hellion* also demonstrates superior disease resistance and drought tolerance. It is a fine-leaved dense turf-type tall fescue variety. *Hellion* has been trialed extensively at the McCarthy Research Farms in both Oregon and Pennsylvania with excellent results.

Seeding Rates:

New Lawn: 8-12 lbs. per 1,000 sq. ft.
Overseeding: 4-6 lbs. per 1000 sq. ft.

Areas of Use: *Hellion* is recommended for permanent turf in full or partial shade on golf course roughs, out-of-bounds areas, and low maintenance sites. It can be utilized in turf-grass mixtures maintained at a moderate height of cut. Can be used in dry temperate regions in addition to hot and humid regions with excellent results.

- **Good heat tolerance**
- **Disease resistant**
- **Drought tolerant**
- **Dark green color**
- **Good wear tolerance**
