

Quarry

Hard Fescue

For Low Maintenance Lawn Areas

QUARRY

Hard Fescue

Quarry Hard Fescue is an exceptional variety that we are proud to add to our fine fescue line up. Over the last few years we have intensely watched the performance of *Quarry* and decided that the improvements over other Hard Fescues were too substantial to ignore. The dark green color of *Quarry*, combined with its low growing nature and quick establishment are just a couple of the characteristics that distinguish *Quarry* from other Hard Fescue varieties. Other outstanding attributes include its shade tolerance and disease resistance.

Seeding Rates:

New Lawn: 4-5 lbs. per 1,000 sq. ft.

Overseeding: 2-2.5 lbs. per 1000 sq. ft.

Areas of Use: *Quarry* is best utilized in mixtures designed for improved shade tolerance, low cutting heights and reduced maintenance. It can be used in winter overseeding programs as a minor component for rapid transition turf-grass mixtures. *Quarry* is compatible with Kentucky bluegrass, perennial ryegrass, colonial bentgrass and other fine fescues.

- **Fine leaf texture**
- **Slow growth**
- **Dark green color**
- **Disease resistant**
- **Good shade tolerance**

Growth Habit	Estab. Rate Days	Mowing Frequency	Traffic Tol. (Brinkman)	Nitrogen Required	Shade Tolerance	Cold Tolerance	Drought Tolerance	Endophyte Enhanced	Salinity Tolerance
Bunch	Medium 18-21	2x month	Fair	Low <4lbs	Very Good	Very Good	Good	Yes >90%	<3 Poor
