

Luscious

Tetraploid Perennial Ryegrass

For Forage and Crop Rotations

Luscious Tetraploid Perennial Ryegrass is a new medium-to-late maturing perennial ryegrass. It is a high energy grass that produces high sugar and protein content. *Luscious* will help you achieve the gains needed out of your animals, whether you are trying to produce pounds of milk or meat. The high sugars in *Luscious* helps animals get more bites per hour. *Luscious* works well as a stand alone crop or as part of a pasture mix. It can either be grazed or machine harvested for hay, silage or green chop. *Luscious* will perform very well in both cold and dry conditions, providing quality forage when the rest are fading out. (Always check nitrate levels before feeding).

Seeding Rate:

Straight: 24-40 lbs. per acre

Areas of Use: *Luscious* can be used for pastures, over-seeding, grazing or harvesting. It is an excellent choice for rotational grazing. Produces wide leaves with superior feed quality high in sugar and protein. Establishes quickly and demonstrates excellent persistence.

- **Highly palatable**
- **High forage yields**
- **Rapid establishment**
- **Superior persistence**
- **High sugar and protein**

Growth Habit	Estab. Rate Days	pH Range	Dry Matter Yield	Nitrogen Required	Anerobic Soil Tol.	CP%	NDF	ADF	Endophyte Enhanced
Perennial Bunch	Fast 5-7	5-8	1-4 tons/ac	>120 lbs/ac	Excellent	24-40	47-50	27-29	No
